MTAHQ17 84	PCAC			3/18/10	2009 Annual Performance Review indicated concerns that the communications with FTA in relation to Main Line Corridor Improvement Project is inadequate and recommended MTA HQ investigation.	The LIRR has responded to this matter on three occasions in the past year: 1) January 12, 2010 letter to LIRRCC 2) January 12, 2010 letter to PCAC 3) April 9, 2010 letter to LIRRCC, response to 2009 Annual Performance Review The January 12th responses state: " ...Before undertaking the DEIS effort, LIRR met with FTA to discuss the project. As the project advanced, LIRR included MTA Planning, FTA, other State agencies, local politicians and other stakeholders in the process." The April 9th response, item 3c emphasizes that MTA HQ Planning Staff were active participants on the Main Line Corridor project team. They provided meaningful input to all aspects of the project and provided MTA-wide context for this system expansion.	7/31/10
MTAHQ17 85	PCAC			3/18/10	2009 Annual Performance Review expressed concern with no definitive word on the next step in the integrated security program after the default of the former prime contractor, Lockheed Martin.	Lockheed Martin was defaulted in June 2009. MTACC performed various assessments to determine what work needed to be completed to get the project completed. Task orders were prepared for each Agency to complete the installation of devices at monitored locations and at the command centers. Assessments of each system under IESS were also performed and remaining work was incorporated into additional task orders. MTACC immediately began work on those task orders. To date, LIRR and Bridges and Tunnels have operational Command Centers. The MTAPD Central Command Center is available for IESS functions and will be available for dispatch early next year. Remaining work includes completing installation on Metro North and New York City Transit locations. All work is anticipated to be complete by next year. The only remaining dependency is the need for additional funding to complete the work in the NYCT under river tunnels, which is expected through the DHS TSGP Program.	7/31/10

MTAHQ17 87	PCAC			3/18/10	2009 Annual Performance Review commends the physical progress of the East Side Access project but expressed concerns that the project will be significantly late and over budget.	<p>The MTA and FTA agree that it is prudent to consider the costs and schedule of mega projects such as East Side Access (ESA) in the form of ranges that bracket the lower and higher cost and schedule scenarios for each project and to establish a specific target budget within this range to which the projects will be managed.</p> <p>During 2009 a comprehensive review of the ESA cost and schedule was completed by the MTA Capital Construction Company (CCC), the MTA Office of Construction Oversight and the Independent Engineering Consultant. This review identified project budget and schedule ranges and allocated the risk contingencies, previously identified as a separate reserve, as necessary to the project budget. As a result of this review the ESA target budget was set to \$7.3 billion, excluding rolling stock costs, with a revenue service date of September 2016. Following this review, the FTA, with its Program Management Oversight Consultant, conducted its own Risk Assessment that resulted in a project budget and schedule which, while higher than MTA's target budget and schedule, were within the ranges identified by the MTA.</p> <p>With the understanding of the project costs, risks and mitigation strategies and the implementation of enhanced management strategies developed in conjunction with the FTA, MTA CCC can adhere to these budgets and schedules despite difficult conditions. The FTA's assistance in identifying mitigation strategies will also ensure the delivery of these projects.</p> <p>These cost ranges are presented and discussed in more detail in the MTA's 2010-2014 Capital Program.</p>	7/31/10
MTAHQ17 88	PCAC			3/18/10	2009 Annual Performance Review expressed concern that the report issued by the Office of Legislative and Community Input, as required by Chapter 25 of the Laws of 2009, has not fulfilled its mandate. The PCAC complained that the MTA should have somehow provided oversight on the "quality of comments and detail of responses, taken the opportunity to assess what type of issues were of concern to constituents and compiled the and disseminated the results in a meaningful way." The PCAC also takes issue with the fact that the report also includes communications from the MTA to the PCAC and the Legislators.	<p>It is the MTA's position that the subject report is consistent with both the letter and spirit of the law. The MTA believes that all communication from Legislators and PCAC are important and thus would not be appropriate to make a qualitative judgment regarding "the type of issues [which] were of concern to constituents" and possibly restrict the compilation of those contacts. Though the law does not require that the MTA include its proactive communications with the Legislature and PCAC in the compilation, we feel it is important for the public, the Legislature and the PCAC to understand the wide range of issues on which the MTA proactively communicates with the Legislature and PCAC in order to keep these bodies informed. Regarding the comment that the compilation is not "disseminated ... in a meaningful way," the compilation has been distributed to the press, posted on the MTA's website and mailed to the appropriate State officials pursuant to the requirements of Chapter 25.</p>	3/2/10
MTAHQ17 89	PCAC			3/18/10	2009 Annual Performance Review indicated PCAC is concerned that the corporate structure of MTA HQ lacks rationale.	<p>MTA HQ payrolls were reduced by 20% in 2010. Agency-wide consolidation of press operation almost complete, which will provide more efficient press management. Managing Director appointed to manage MTA HQ and ensure that corporate structure is appropriate for tasks required or expected of MTA HQ. Agree with PCAC that it is too soon to tell whether these changes will be effective.</p>	7/31/10

MTAHQ17 90	PCAC			3/18/10	2009 Annual Performance Review made positive comments regarding improvements in communications with the public.	Completely redesigned website began operation; all Board and Committee materials now available on the MTA website; clearer presentations of goals and objectives in presentation of 100 day report, "Making Every Dollar Count" and 2010-14 Capital Plan summary.	7/31/10
MTAHQ17 91	PCAC			3/18/10	2009 Annual Performance Review made positive comments regarding the completion of the latest NYC Customer Travel Survey. Expressed desire to see additional reports from travel survey data. Also expressed concern that MTA Planning Department, which conducted the survey, would be subject to reduced staffing.	With LIRR, MTA Planning intends to undertake the next travel survey, an O/D survey of LIRR, in 2011. MTA Planning staff was reduced by 2 positions in the HQ reduction in force. Adequate staff remains to carry out the Planning work program.	7/31/10
MTAHQ17 92	PCAC			3/18/10	2009 Annual Performance Review expressed concern that MTA has fallen short in identifying the significant employment it creates through its operations and capital program.	In a year when subsidies are \$900 million less than expected, the use of resources must be prioritized and spending those resources on additional quantification of the economic impact of the MTA is not warranted. The book "The Economic Impact of the MTA Capital Program Investment Program in New York State" was recently updated in 2008 and its conclusions would likely not change if updated again in 2010.	7/31/10
MTAHQ17 93	PCAC			3/18/10	2009 Annual Performance Review made the comment that the MTA was making positive steps in promoting the economic and sustainability impacts of the MTA.	MTA agrees.	7/31/10
MTAHQ17 94	PCAC			3/18/10	2009 Annual Performance Review expressed the concern that the MTA's reputation in Albany is poor.	Clearly, in 2009 the Legislature experienced fatigue with MTA issues, and the contentiousness of first the congestion pricing debate and finally the financial package adopted as part of Ch. 25 of the Laws of 2009 reflect this. MTA fared better through 2010, however, and was able to record many significant legislative successes without the contentiousness of 2009. Among these successes were the approval by the Capital Program Review Board of the 2010-14 Capital Program, an extension of and increase to the MTA's statutory bond cap, a pilot program for camera enforcement of Bus Rapid Transit lanes, the creation of a small business mentoring program in the Capital Program, and a waiver to the diesel emissions retrofit mandate.	7/31/10
MTAHQ17 95	PCAC			3/18/10	2009 Annual Performance Review expressed the concern that the MTA does not harness the energy of rider advocates.	The MTA agrees that rider advocates could be a source of much energy and enthusiasm to support the MTA, and is open to firm recommendations as how to best accomplish this.	7/31/10
MTAHQ17 96	PCAC			3/18/10	2009 Annual Performance Review commended outgoing NYCT President Roberts' accomplishments and looks forward to continued work with new NYCT President Prendergast.	Noted	7/31/10
MTAHQ17 97	PCAC			3/18/10	2009 Annual Performance Review appreciates the dedication of NYCT to continue with the endless smaller jobs that are needed to keep improving the system.	Noted	7/31/10
MTAHQ17 98	PCAC			3/18/10	2009 Annual Performance Review is encouraged that work is finally being done to address deterioration present along the F Line.	Noted	7/31/10

MTAHQ1802	PCAC			3/18/10	2009 Annual Performance Review has significant concerns regarding the 7 Line Extension project, including cost overruns and failure to secure funding for 10th Avenue station.	MTACC and its funding partner, HYDC, continue to manage the project to the \$2.1 Billion cost. Information regarding expenditures and construction is available in the monthly MTA Board Transit Committee book, which can be found online at http://mta.info/mta/news/books/pdf/100726_0930_TRANSIT.pdf . The City of New York is exploring funding for the 10th Avenue Station.	7/31/10
MTAHQ1803	PCAC			3/18/10	2009 Annual Performance Review suggested that quality of work at Fulton Street Transit Center be monitored and better reporting clarity.	We will continue to monitor the quality of work at this location and provide more accessible information on the project.	7/31/10
MTAHQ1804	PCAC			3/18/10	2009 Annual Performance Review expressed concern regarding the South Ferry Station reconstruction.	We are currently working with NYC Transit on leak remediation and are discussing our options with them including possible grouting during scheduled service diversions later this fall.	7/31/10
MTAHQ1805	PCAC			3/18/10	2009 Annual Performance Review endorsed the combination of NYCT Bus, MTA Bus and LI Bus operations, noting that overall operations and the rider experience continue to improve.	Noted.	7/31/10
MTAHQ1806	PCAC			3/18/10	2009 Annual Performance Review indicated that the jury remains out on a number of issues relative to the Line General Manager Program, such as station maintenance and car equipment. Also expressed concern that the LGM Program has not addressed the need for overall management of major station hubs, such as Times Square and Atlantic Terminal.	A restructuring of DOS has removed responsibilities for station maintenance and car equipment from LGMs and recentralized those functions in newly established Station Environment and Service Delivery units of DOS.	7/31/10
MTAHQ1807	PCAC			3/18/10	2009 Annual Performance Review gave kudos to Select Bus Service operations on the Bx12 route. Also noted that upgrades to M34 and M16 routes along 34th Streets (a bus lane and pilot project to test Customer Information System Technology) were well received by riders. Expressed hope that this initiative will be continued and expanded to other routes..	The 34th Street improvements are a NYCDOT initiative that NYCT is supporting. NYCT is continuing to explore CIS systems for real-time bus arrival information that will ultimately be expanded systemwide.	7/31/10

MTAHQ1809	PCAC			3/18/10	2009 Annual Performance Review complimented NYCT's efforts, via its Asset Condition Plan, to bringing its "State of Good Repair" designation more in line with actual conditions of assets and with the customer experience.	Noted.	7/31/10
MTAHQ1810	PCAC			3/18/10	2009 Annual Performance Review expressed approval for NYCT's effort to acquire new environmentally friendly buses, noting that the acquisition of a larger complement of the DesignLine Buses would be a major accomplishment toward sustainability goals.	There are currently concerns with reliability, as well as fuel economy for the ECO Saver IV model; however, NYCT is continuing its testing and evaluation as the bus manufacturer makes adjustments designed to address these issues.	7/31/10
MTAHQ1811	PCAC			3/18/10	The 2009 Annual Performance Review mentioned the pilot project for a No. 4 Jerome Avenue express service during the weekday morning rush that was conducted for a 7-week period late last year, noting that a decision to make this change permanent has not yet been reached.	This matter is still under review.	7/31/10
MTAHQ1812	PCAC			3/18/10	2009 Annual Performance Review expressed the Riders Council's satisfaction that NYCT pursued its suggestion to implement a pilot program to test luggage racks on airport-bound buses.	This pilot effort is proceeding with greater success than anticipated.	7/31/10
MTAHQ1813	PCAC			3/18/10	Despite NYCT having completed more than the scheduled 67 key stations by 2010, the 2009 Annual Performance Review expressed skepticism as to whether the remaining 30 key stations will be completed by 2020 in view of the tight financial situation	NYCT is fully committed to completing the remaining ADA key stations on schedule.	7/31/10
MTAHQ1814	PCAC			3/18/10	2009 Annual Performance Review applauds NYCT's effort to provide some accessibility at the Willets Point Station via an ADA compliant ramp connecting the platform to the mezzanine ramps to Roosevelt Avenue.	Noted.	7/31/10
MTAHQ1815	PCAC			3/18/10	2009 Annual Performance Review noted completion of the long delayed CBTC and PA/CIS system on the L line while bemoaning the fact that there are still many stations without public address systems.	Current plans call for every station in the subway system to have a Public Address system with real-time capability by the end of 2012.	7/31/10
MTAHQ1816	PCAC			3/18/10	2009 Annual Performance Review noted that notices for planned service diversions continue to present problems in terms of placement in stations, content and timeliness of posting; it expressed hope for improvements in 2010 based on the MTA Chair's prioritization of this issue.	NYCT has met with the Transit Riders Council to preview the new direction being taken with respect to service diversion notices as well as to solicit feedback and suggestions.	7/31/10

MTAHQ18 17	PCAC			3/18/10	2009 Annual Performance Review criticized NYCT for failing to consistently convey information to the disabled community and the public at large about the completion and opening of new station elevators.	This matter has been referred to ADA Compliance for review and consideration.	7/31/10
MTAHQ18 18	PCAC			3/18/10	2009 Annual Performance Review recommends that NYCT present the benefits of capital program related service diversions in the service diversion posters.	NYCT agrees that the ultimate benefit of capital construction work that disrupts customer travel needs to be better conveyed to riders. A campaign is being developed to address this concern, in the form of signage dedicated to communicating the scope and benefits of Capital Projects impacting customer travel.	7/31/10
MTAHQ18 19	PCAC			3/18/10	2009 Annual Performance Review indicated that there should be greater outreach by MTA to communities to tout the benefits of well-planned transit-oriented development (TOD).	Well-planned transit-oriented development benefits both MTA and localities through increased transit usage, more efficient use of land and resources, improved station amenity and additional revenue sources. MTA and its operating agencies have been aggressively promoting these TOD benefits by meeting with municipalities and speaking at local and regional planning forums. To increase this outreach, MTA recently convened special meetings of the NYMTC Transportation Coordinating Committees to improve collaboration with counties and local land use jurisdictions, and is developing a handbook of TOD best practices and regional examples that demonstrate TOD benefits.	7/31/10
MTAHQ18 20	PCAC			3/18/10	2009 Annual Performance Review suggests the issue an annual report on its efforts to achieve the goals set forth in the January 2009 final report by the Blue Ribbon Commission on Sustainability, <i>Greening Mass Transit & Metro Regions</i> .	The MTA agrees and hopes to begin issuing annual reports on our progress in environmental sustainability across a number of dimensions in 2011.	7/31/10
MTAHQ18 21	PCAC			3/18/10	2009 Annual Performance Review expressed the concern that there was no progress on the Smart Card initiative in 2009. The Review stated that while the team at NYCT had worked on the initiative for more than five years, the project was held back by MTAHQ's indecision. PCAC believes that the MTA lost the opportunity to operate cross-town buses at faster speeds, with less bus bunching and easier boarding because smart card technology was not implemented.	Implementing a new fare payment system based on smart card technology is a key initiative of Chairman Walder, as outlined in "Making Every Dollar Count," the vision for transforming the MTA (January 2010). His vision is for one card to act as a single fare payment medium for all agencies. In January 2010, MTA hired a full-time project director (Senior Director, New Fare Payment Systems). The Senior Director presented an overview of the new fare payment system concept to PCAC Executive Director and staff on May 19 and to NYCT Riders Council of the PCAC on June 24, 2010. The system will be phased in by agency; system implementation will begin at NYCT, with deployment initially on the entire bus fleet, and followed by deployment in all of the subway stations. Currently, this technology is being tested for six months at select stations on the Lexington Avenue line and on eight intersecting bus routes. The pilot began June 1, 2010 and will conclude on November 30, 2010. The pilot is limited in scope and aims to prove the technology for processing transit fares in an open payment environment.	8/9/10
MTAHQ18 22	PCAC			3/18/10	2009 Annual Performance Review applauds Metro-North Railroad with regard to leadership, organization, service performance, station and equipment, communication, station access, customer service and community outreach.	Noted.	7/31/10

MTAHQ18 23	PCAC			3/18/10	2009 Annual Performance Review expressed concern that LIRR leadership has been unable to effectively insure that employees adhere to work rules and codes of conduct that meet the highest professional standards.	In response letter to 2009 Annual Report, LIRR noted that LIRR investigates incidents and continually implements, revises, and reviews new procedures with employees, and reinforces this with additional training. The LIRR believes that the conduct of our train engineers is professional and dedicated to the delivery of safe, secure and reliable train service.	4/9/10
MTAHQ18 24	PCAC			3/18/10	2009 Annual Performance Review indicated that the council is concerned that the LIRR lacks a strategic business plan for the future. Although the MTA Planning department produced its 20 Year Needs Assessment which includes the LIRR, the LIRR has no document that lays out a short or long term vision for its employees or its riders.	In response letter to 2009 Annual Report, LIRR noted that the MTA's 20 Year Needs document presents the corporate vision for all MTA agencies and is used to create an MTA wide 5 Year Capital Program. The LIRR's section of the 20 Year Needs lays out the LIRR's long term vision for both modernizing the railroad's existing infrastructure and undertaking critical expansion projects.	4/9/10
MTAHQ18 25	PCAC			3/18/10	2009 Annual Performance Review requested that LIRR add standee report to monthly LIRR Committee board book, similar to the one in the Metro-North Committee book.	In response letter to 2009 Annual Report, LIRR stated that this request was being evaluated and that the LIRR intends to begin providing a similar standee report.	4/9/10
MTAHQ18 26	PCAC			3/18/10	2009 Annual Performance Review requested data on the number of trains delayed by flooding.	In response letter to 2009 Annual Report, LIRR provided the requested information.	4/9/10
MTAHQ18 27	PCAC			3/18/10	2009 Annual Performance Review requests a review to clarify the LIRR's management and organizational structure, identify roles, areas of redundancy and staffing deficits.	In response letter to 2009 Annual Report, LIRR explained that it is undergoing a broad restructuring and consolidation of its administrative areas as part of the MTA's cost reduction initiatives.	4/9/10
MTAHQ18 28	PCAC			3/18/10	2009 Annual Performance Review notes that it is pleased by the positive trend reflected in the reported 2009 on-time performance of 95.2% but that this is not the same as the on-time experience of a rider.	In response letter to 2009 Annual Report, LIRR noted that the methodology used to measure on-time performance is considered an effective "best practice" approach that is used and accepted throughout the commuter rail industry.	4/9/10
MTAHQ18 29	PCAC			3/18/10	2009 Annual Performance Review criticized the LIRR's snow storm preparedness and response. The blizzard of December 2009 brings into question the Rail Road's planning and preparation for delivering service under adverse conditions. The Council found the LIRR's response and communication efforts during the storm unacceptable.	In response letter to 2009 Annual Report, LIRR stated that the LIRR safely transported tens of thousands of customers during the blizzard of December 2009 running more than 900 trains during the weekend. While we experienced significant delays due the the record snowfall, the LIRR kept service running and communicated throughout the storm. We will continue working to improve our emergency response and communication efforts.	4/9/10
MTAHQ18 30	PCAC			3/18/10	2009 Annual Performance Review noted that the Council is disappointed by the lack of a station access strategic plan, especially in light of the future East Side Access impacts on commutation patterns.	In response letter to 2009 Annual Report, LIRR stated that it is actively planning for improved station access for today's customers as well as new customers that will be drawn to LIRR service by the availability of convenient direct rail service to Grand Central Terminal.	4/9/10
MTAHQ18 31	PCAC			3/18/10	2009 Annual Performance Review stated that the LIRRCC is not satisfied that the LIRR put forward its 2010-2014 Capital Program with no provision for additional diesel locomotives.	In response letter to 2009 Annual Report, LIRR stated that it already has "protect locomotives" strategically placed throughout the system to rescue disabled trains. In addition, in this capital program the LIRR is looking at alternative diesel equipment to provide scoot service on lightly used branches.	4/9/10

MTAHQ18 32	PCAC			3/18/10	2009 Annual Performance Review asks the LIRR to report on the status of the Verizon Wireless contract to provide cell phones to train crews.	In response letter to 2009 Annual Report, LIRR stated that its cell phone distribution strategy is under review given the current fiscal crisis.	4/9/10
MTAHQ18 33	PCAC			3/18/10	2009 Annual Performance Review states that the LIRRCC is pleased that the Rail Road continues to support its important gap education program but that, unfortunately, gap incidents still continue to occur.	In response letter to 2009 Annual Report, LIRR stated that while its goal is to eliminate gap incidents, we are trying to build a partnership with customers who must act in a responsible manner when getting on or off a train.	4/9/10
MTAHQ18 34	PCAC			3/18/10	2009 Annual Performance Review raised concerns about the failure of conductors to collect tickets and stated that they will continue to pursue better LIRR management oversight and auditing.	In response letter to 2009 Annual Report, LIRR stated that fare collection is a primary concern. A new focus on fare collection has been established that will encompass the cooperation of all Transportation Managers to ensure compliance.	4/9/10
MTAHQ18 35	PCAC			3/18/10	2009 Annual Performance Review states that the LIRR has an image problem due to railroad debris littered on the right-of-way and station conditions. It is suggested that the Council and communities be informed of any formal long-term plan or time line to address same.	In response letter to 2009 Annual Report, LIRR stated that it considers maintenance and upkeep of the right of way a high priority. The LIRR Engineering/Track Department has a right-of way clean up program and has removed 5302 cubic yards of debris from the right of way in 2009 and 1166 cubic yards of debris in 2010 to date. Also, we are cleaning up Jamaica area as part of the signal cutover this fall. The LIRR also has an aggressive program to address pigeon droppings and currently there is a contract in place to provide "pigeon proofing" services for all of our stations. In addition, the LIRR Heavy Duty Cleaning team regularly addresses these stations as well.	4/9/10
MTAHQ18 36	PCAC			3/18/10	2009 Annual Performance Review applauds LIRR leadership with regard to Diesel Task Force, the successful execution of the Valley Stream interlocking project, as well as how LIRR provided excellent service for special events throughout 2009.	Noted.	4/9/10
MTAHQ18 37	PCAC			3/18/10	2009 Annual Performance Review requested a complete list of stations that do not have Public Address capabilities.	In response letter to 2009 Annual Report, LIRR stated that as stated previously, every station has Public Address capabilities. Belmont Station is the only station that must be accessed locally by the ticket agent. Other stations can be accessed from the LIRR's Operation Center in Jamaica.	4/9/10
MTAHQ18 38	PCAC			3/18/10	2009 Annual Performance Review requested an explanation of various criteria with regard to the process of calculating on time performance (OTP).	In response letter to 2009 Annual Report, LIRR stated that the LIRRCC was provided with a written document outlining how OTP is calculated. A summary of how OTP is calculated was also provided in the response letter.	4/9/10
MTAHQ18 39	PCAC			3/18/10	2009 Annual Performance Review requested a status report on the replacement of armrests on M7 cars.	In response letter to 2009 Annual Report, LIRR stated that cars 7013-14 are the prototype M7 cars with modified armrests. Based upon the current fiscal crisis we are deferring armrest replacement.	4/9/10
MTAHQ18 40	PCAC			3/18/10	2009 Annual Performance Review requested a list of police actions broken down by type of action and information on the overall volume of police activity on the LIRR and its service impacts.	In response letter to 2009 Annual Report, LIRR stated that MTA Police Chief Finneran has suggested a meeting with LIRRCC to see what they are looking for specifically and to see if we can provide the information. Chief Finneran attended LIRRCC meeting on April 8, 2010. Monthly statistics on MTA police activity on the LIRR are provided to the MTA Long Island Committee.	4/9/10

MTAHQ18 41	PCAC			3/18/10	2009 Annual Performance Review continues to request the LIRR Main Line Corridor Improvement Project DEIS.	In response letter to 2009 Annual Report, LIRR stated that as discussed throughout the course of two years with members of the PCAC and the LIRRCC, the Preliminary Draft Impact Statement (PDEIS) is not a finalized product and it is not endorsed by the FTA for release. Only a Draft Environmental Impact Statement (DEIS) that is acceptable to the FTA can be released. In July 2008, the LIRR suspended further work on the Preliminary DEIS and is pursuing an examination of near term improvements on the mainline from Hicksville to Floral Park to reduce train congestion and improve reliability.	4/9/10
MTAHQ18 42	PCAC			3/18/10	2009 Annual Performance Review applauds LIRR station work with regard to the Huntington Station 100th anniversary, Penn Station restrooms/waiting room makeover and the completion of the Brentwood Station renovation.	Noted.	4/9/10
MTAHQ18 43	PCAC			3/18/10	2009 Annual Performance Review applauds LIRR leadership with regard to Diesel Task Force, the successful execution of the Valley Stream interlocking project, as well as how LIRR provided excellent service for special events throughout 2009.	Noted.	4/9/10
MTAHQ18 44	PCAC			3/18/10	2009 Annual Performance Review continues to request that LIRR begin to generate metrics for passenger impacts and the LIRR response time to the diesel fleet disruptions in order to guide the Rail Road in its evaluation of service to its customers.	In response letter to 2009 Annual Report, LIRR stated historically, the LIRR has found On Time Performance to be the best gauge for evaluating the customer impact, whether the trains are diesel or electric powered. The railroad's overall OTP is publicly available, and we will make fleet specific OTP available upon request as in the past.	4/9/10
MTAHQ18 45	PCAC			3/18/10	2009 Annual Performance Review continues with request that LIRR should continue to publicize how riders can sign up for the Rider Alert System.	The LIRR publicizes the MTA Email and Text Message Alert System on its website home page. In addition, customers are encouraged to sign up for email alerts during service disruptions and as part of the public awareness campaigns for major trackwork projects.	4/9/10

NYCT6376	SENATE	Serrano, Jose M.		3/25/10	Second Avenue Subway tenant relocations	Briefing for elected officials on Second Avenue Subway work and tenant relocations held on April 6, 2010.	4/6/10
B&T 1010	Senate	Padavan, Frank		3/26/10	Follow-up about lead paint debris allegedly from Throgs Neck Bridge project, according to constituent who made claims.	Explained that we do all paint removal operations under strict containment and our contractors clean up any escaped debris. Constituent's report claims unfounded and unsubstantiated. DEC inspections found no violations regarding our work or bridge.	3/26/10
NYCT5523	ASSEMBLY	Brennan, James		3/26/10	Complained about B69 reroute from 8th Avenue to 7th Avenue south of Flatbush Avenue	Part of full 2010 service cuts; same amount of service will be provided along 7th Avenue	4/16/10
NYCT6637	PCAC		Henderson, William A.	3/26/10	Complaints and questions about tour buses parking in the express bus stops in front of 250 Broadway.	Monitored site on day of complaint, but observed no tour buses parking at location in question; will continue to monitor the site and take steps as warranted if tour buses are observed parking in NYCT bus stops	3/29/10
NYCT6393	SENATE	Krueger, Liz	Krinsky, Jennifer	3/29/10	Second Avenue Subway tenant relocations	Even though tenant relocations are outside of her district, State Senator Krueger may be interested due to proximity to her district. Meeting held on April 6, 2010.	4/6/10
Bus Co 960	Senator	Golden, Martin J.	Byrnes, Joan	3/30/10	A constituent complained about long lines and delays on the Q25 on Main Street in Flushing	Will continue to monitor this line for any problems that may exist but no serious problems reported to date of complaint. This is a very heavily travelled area, with connections to many buses and the #7 subway. Results of the investigation emailed to Ms. Byrnes who will provide to constituent.	4/13/10
B&T 1015	Senate	Padavan, Frank	Gorman, Brian	3/30/10	Letter request asking for consideration of relocation of 3rd Ave. exit to 7th Ave at Whitestone Bridge.	Explained that this idea had been suggested previously, and deemed unfeasible because of safety and logistical issues relative to the already congested interchange of Whitestone Expressway and Cross Island Parkway; locating an exit ramp therein would only exacerbate the traffic flow.	4/15/10
B&T 1011	Senate	Klein, Jeffrey	Doyle, John	3/30/10	Asking about Harding Ave. entrance weekend closures at Throgs Neck Bridge, which community requested years ago; Senator pushed by catering hall to open it limited weekend hours for guests.	Explained the history of Harding entrance issue regarding community's opposition to having it open during weekends because of traffic through neighborhood; also that we will only reopen entrance when community declares its consensus that they want it open again, not merely in response to elected official's request brought on by business owner's request.	3/30/10

Bus Co 963	Senator	Klein, Jeffrey	Doyle, John C.	4/8/10	Expressed continued concern on pending and approved service reduction compromise to replace BxM7B with extended BxM7A trips. Would like service to/from City Island to by-pass stops.	Advised that this recommendation would negate all of the proposed savings associated with the BxM7B discontinuation. We believe adequate capacity exists on BxM7A to handle City Island express bus (former BxM7B) volume.	4/8/10

B&T 1018	Assembly	Hikind, Dov	Cohen, Dov	5/1/10	Chief EEO Officer had a number of conversations with Dov Cohen, Chief of Staff for State Assemblyman Dov Hykind (Bensonhurst, Brooklyn), who called on behalf of a sergeant at Throgs Neck Bridge regarding her request for "reasonable accommodation" for religious observance as an Orthodox Jew.	Chief EEO Officer told Hikind's office that the sergeant had been advised that B&T procedure is exactly as the law requires -- we make a good faith effort to accommodate and assist the individual in arranging "mutuals" but, if not possible, the individual may not absent himself/herself from the assigned tour or will face discipline. We are a 24/7 operation, the title is safety-sensitive, etc. Initially, it was sometimes difficult to accommodate her requests at the Throgs Neck. Situation was somewhat alleviated when she transferred to the Queens Midtown Tunnel. Resolved when she ended up getting her choice of schedule at the VN, which also allowed her to go to school, another concern of hers.	6/14/10

LI Bus 946	Senate	Johnson, Craig	Suma, Lauren	7/27/10	Customer contacted Johnson's office with concerns about Able-Ride. She received a letter from Able-Ride about her late cancellations and no show occurrences that are on her record. She needs the service to get to her doctor appointments. She is a senior and I wanted to report this information to you. Please let me know if you can assist.	Our records show the last infraction letter that we sent to the customer was in March 2010, and we removed the infraction from her record. To date, she has no infractions. Able-Ride policy was further explained to Lauren.	7/29/10
